DETAILED ACTION

Claim Objection

Claims 1, 9, and 10 are objected to because of the following informalities: in claim 1, 9, and 10 "is arranged, and having a lower driving frequency than that of the horizontal scanning circuits" should be arranged to "is arranged; the vertical scanning circuit having a lower driving frequency than that of the horizontal scanning circuits". Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 9, and 10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amendment submitted on 08/06/2008 includes added limitations in claims 1, 9, and 10 that includes the following: "vertical scanning circuit arranged along a side of the chip not parallel to the side of the chip and along which none of the horizontal scanning circuits is arranged, and having a lower driving frequency than that of the horizontal scanning circuits". The section of "vertical scanning circuit arranged along a side of the chip not parallel to the side of the chip" is

not disclosed in the original submission dated 09/22/2003. These claims are subjected to new subject matter rejection. Appropriate correction is required.

Note, **claims 2 - 3, and 5 - 8, and 11 - 16** are also rejected under 35 U.S.C. 112, first paragraph as being dependent on independent claims 1, 9, and 10 rejected under 35 U.S.C. 112, first paragraph.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 9, and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The examiner is unsure of what the applicant is claiming when the applicant claims "vertical scanning circuit arranged along a side of the chip not parallel to the side of the chip". This new limitation is not consistent with figure 1 and the specification as originally filed.

Note, **claims 2 - 3, and 5 - 8, and 11 - 16** are also rejected under 35 U.S.C. 112, second paragraph as being dependent on independent claims 1, 9, and 10 rejected under 35 U.S.C. 112, second paragraph.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
